The GA06 mini-grid is a fully welded ruggedized parabola grid, providing highly reliable point to point or point to multi-point communication.

Utilising PCB manufacturing techniques, this grid offers best in class reliability and performance, with Low PIM performance, high reliability as well as pattern stability and more importantly, repeatability.

Although highly durable in design, wind loading and weight have been reduced, through respective design elements, including tubular aluminum, and lightweight, UV stabilised ABS radome and PCB element.

The integrated mounting clamp offering full articulation and polarisation adjustment; offering more assistance and reduction in time during installation.

## Features:

■ Highly durable
■ Fully articulated mounting design
■ Vertical, Horizontal or $\pm 45$ linear polarisation
■ Full wideband operation

Electrical Specifications

| Model Number |  | GA06-1738 |  |
| :--- | :---: | :---: | :---: |
| Nominal Gain dBd $(\mathrm{dBi})$ | $16.0(18.1)$ | $20.0(22.1)$ | $22.0(24.1)$ |
| Frequency $(\mathrm{MHz})$ | $1710-2170$ | $2170-2700$ |  |
| Tuned Bandwidth |  | Full |  |
| VSWR |  | $1.8: 1$ |  |
| Nominal Impedance $(\Omega)$ | 13 | 50 |  |
| Vertical Beamwidth (degrees) | 13 | 11 |  |
| Horizontal Beamwidth (degrees) |  | 11 |  |
| Front to Back Ratio $(\mathrm{dB})$ |  | 30 |  |
| Power $(W)$ |  | 50 | 9 |

Mechanical Specifications

| Model Number | GA06-1738 |
| :--- | :---: |
| External Construction | Alodined aluminium |
| Height $(\mathrm{mm})$ | 670 |
| Width $(\mathrm{mm})$ | 670 |
| Depth $(\mathrm{mm})$ | 400 |
| Weight $(\mathrm{kg})$ |  |
| Termination |  |
| Projected Area - No Ice $\left(\mathrm{cm}^{2}\right)$ | 1.0 m of RG142 fitted with $4.3-10(\mathrm{~F})$ connector, N type adaptor included |
| Projected Area - With lce $\left(\mathrm{cm}^{2}\right)$ | 19311 |
| Lateral Thrust @ 160km/h $(\mathrm{N})$ | 22560 |
| Wind Gust Rating $(\mathrm{km} / \mathrm{h})$ | 4229 |
| Torque @ 160km/h $(\mathrm{Nm})$ | 234 |
